               create table train(
 no data found
```

14. Display those employees who join the company this month

15. Display those employees who join the company in last 30 days

Create a table train having three four columns

Use Timestamp data type for time

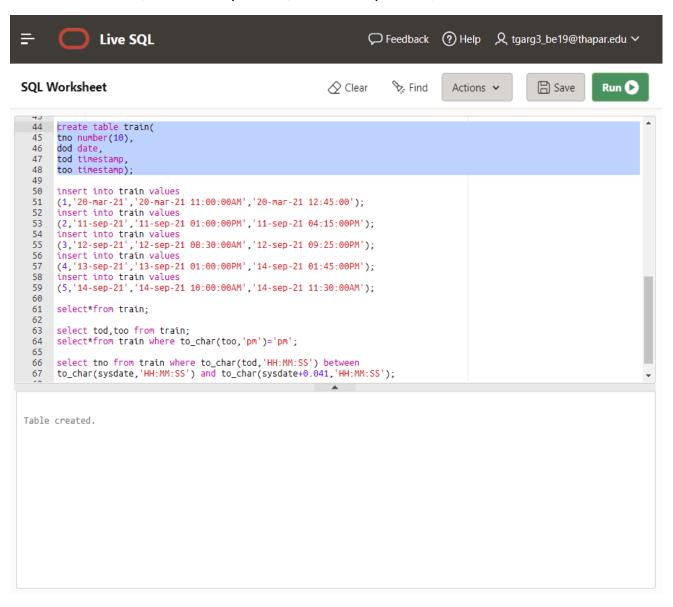

```
create table ttrain(
tno number(11),
dod date,
tod timestamp,
too timestamp
);

insert into ttrain values(1200, '27-mar-2021', '27-mar-2021 08:00', '28-mar-2021 11:00');
select * from ttrain;
```

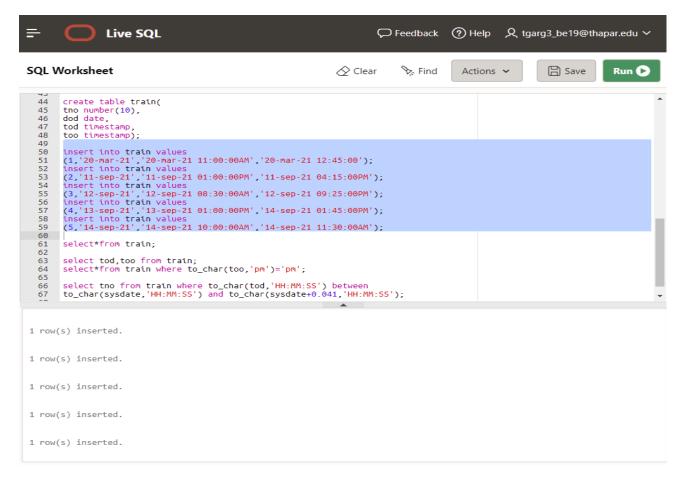

Or

```
insert into eee values (TO_TIMESTAMP('1990-02-02 10:10:10', 'YYYY-MM-DD HH24 MI:SS'))
insert into eee values (TO_TIMESTAMP('1990-02-08 10:10:10 AM', 'YYYY-MM-DD HH:MI:SS PM))
select * from eee
```

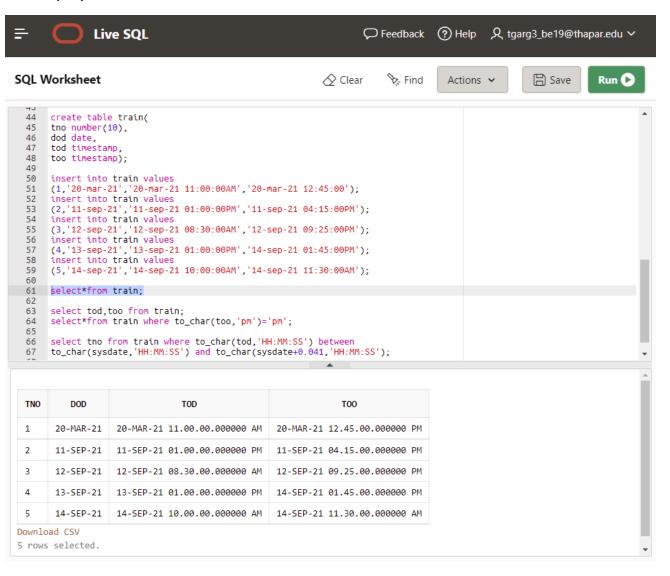

16. Train Number, date of Departure, time of departure, time of arrival

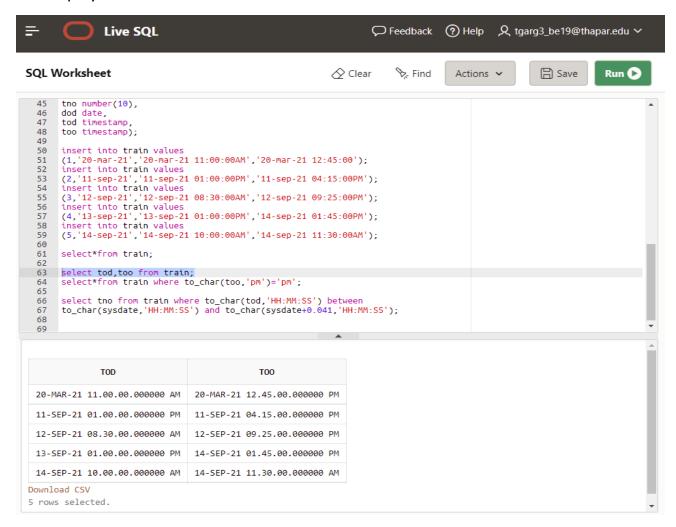

17. Insert five columns in train table

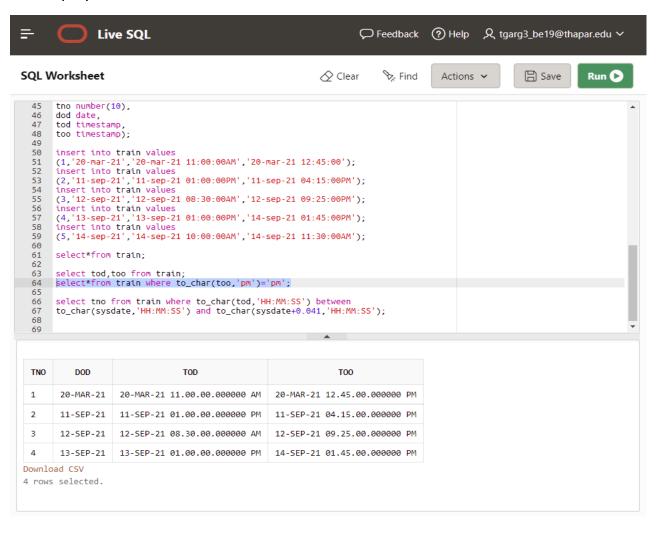

18. Display all the records

19. Display the time values inserted in the columns

20. Display those trains which arrived on PM

21. Display train number who are going to depart in next on hour.
